How do you do !

I am chhoeun Socheat. I am a teacher of yamanami school.

Now I would like to report to you since 2006 to 6, in our school there are one hundred and thirty students including the students from near or far village came to study in yamanami school and now day in angkor krau village the is out government organization was established english classes at angkor krau primary school and the students went to study at angkor krau village, but not only there is a private school for teaching the students also, before our village there is only one school mama's yamanami school and there are many students came to study, now there are many english classes

They can study near their house but in 2010-2012 in our school there are ninety students and we had divided the times for teaching into three parts; there are morning classes afternoon and evening classes.

In the morning class we started to teach at 7³⁰ AM from 9^{PM} for the students study in the morning. There are twenty nine students. In the afternoon we started to teach at 2³⁰ PM from 4^{PM} for the students study in the afternoon. There are thirty six students.

In the evening taught by Mr. Sophy he started to teach at 7^{PM} until 8 o'clock in the evening. There are twenty five students. And now day the students can speak english with their friends and with foregner.

moreover they can find a job in town to do; some of the students work in a hotel and restaurants, some of them to be taxi drivers and the small students can speak English better than before; I hope that in the future day, they can speak English very well. And I am thinking to you for have idea established the school for students in another Kuan village to study; like English and Japanese language; eventually I wish you good luck and successful your job everytimes and good happiness your family forever!

from Socheat
